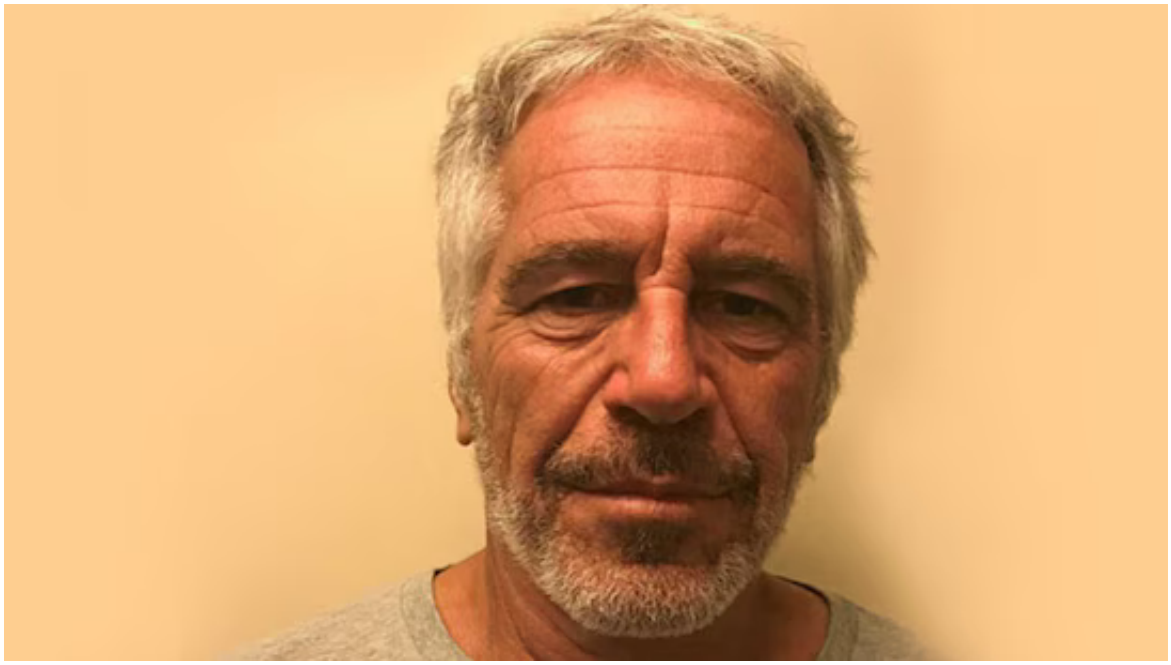
Epstein Files: Full List Of High-Profile People Named In Unsealed Docs

The list of around 150 people also include names of Epstein's associates in a lawsuit brought against his former girlfriend, Ghislaine Maxwell in 2015 and the fist list was published on Wednesday under the order of a New York judge.



Former US presidents Donald Trump, Bill Clinton, former US first lady Hillary Clinton, renowned theoretical physicist Stephen Hawking, Hollywood star Leonardo DiCaprio are among over 100 high-profile people named in the court documents linked to Jeffrey Epstein, a US financier and notorious sex-offender.

The list of around 150 people also include names of Epstein's associates in a lawsuit brought against his former girlfriend, Ghislaine Maxwell in 2015 and the fist list was published on Wednesday under the order of a New York judge.

The second list of court documents linked to Epstein was released on Thursday evening that included names of people already made public, while the third list was released on Friday.

Some individuals have objected to the disclosure of their identities in the case.
